X-treme® COMPOSTER
(Organic Waste Converter)

ABOUT US

X-TREME, is a consortium of Engineers who have decades of experience in the field of Environmental Project Management and Equipment Manufacturing. We are pioneers in designing innovative, cost effective and efficient equipment's with operational ease and reduced running cost as our core value.

As an organization, we are responsible and committed to reduction in urban pollution which fuelled us with the urge to venture into uncharted territories and produce breakthrough solutions in the field of waste management.

X-treme, believes in “REDUCE, RECYCLE, RECOVER & REUSE”

INTRODUCTION

Our OWC is a NON - HEATING TYPE machine with an in-built curing system of 15 – 20 days. As the composting activity is Aerobic, it requires heat and oxygen. Heat is generated naturally by biological activity of micro-organism, we also provide aeration to boost the Aerobic activity. Biological Catalysts like Composting culture, Sawdust or Dry leaves are being mixed with organic waste to make sure that the waste is decomposed naturally. As this is a NATURAL PROCESS, it is not accelerated in any way and it is not done in 5 minutes or 24 hr, therefore you tend to get high quality, matured & odorless compost.

FEATURES

- Fully automatic machine.
- Inbuilt curing system (no separate curing required)
- Compost will be ready-to-use for the garden.
- 100% segregation is not required.
- No smell issue (Passing through carbon column)
- Environmental friendly product.
- High Nitrogen rich compost.
- Low power consumption (operating time is 24 mins/day)
- Easy operation and maintenance.
- Free from Rats / Insects / Flies

MODELS & SPECIFICATIONS

Model	X-30	X-50	X-100	X-150	X-200	X-250	X-300	X-400	X-500	X-800	X-1000

Power Requirement	1kw	1kw	1.5kw	2kw	2.5kw	3.5kw	3.5kw	4.5kw	5.5kw	7.5kw	10.5kw

Why X-treme Composter?

- Dedicated Team with Decade Experience
- Proven & Innovative Technology
- Excellent After Sales Service
- Most Reliable Product
- Assistance to sell Compost
- Satisfied customer feedback

Applications

- Residential Buildings
- Religious Places
- Education Institutions
- Hospitals
- Hotels and Restaurants
- Industries
